

JAYDEEP GADHIYA

SENIOR PHP / LARAVEL DEVELOPER

✉ jaydeepgadhiya5699@gmail.com 📍 Surat, Gujarat, India 🌐 jaydeepgadhiya.github.io

📁 github.com/JaydeepGadhiya in linkedin.com/in/jaydeep-gadhiya

PROFILE

Senior PHP / Laravel developer, 7+ years of production web applications, now team lead and project manager. Laravel and CodeIgniter on the server, MySQL, MongoDB and Redis underneath, JavaScript, Vue and Node.js on the front. Author of six open-source developer tools with 5,900+ installs.

EXPERIENCE

Senior PHP Developer · Team Lead

Artoon Solutions · Surat

Feb 2023 — Present

Team lead and project manager on Laravel work; own CI/CD and review across the PHP group. Built a multi-module university platform — four-role RBAC, membership and per-course payments, application review and approval workflow.

Senior PHP Developer

Adsum Originator · Surat

Jan 2022 — Jan 2023

Restaurant ordering and delivery (module-based architecture), a four-role school attendance system, a cylinder booking app, and the Laravel API plus admin behind a consumer health app on iOS and Android.

PHP Developer

InfyOm Technology · Surat

Jan 2021 — Jan 2022

One month of training from CodeIgniter to Laravel, then live projects: a hospital management system and a multi-role hiring platform with search, alerts and application tracking.

PHP Developer

Vsdesigns

Apr 2020 — Jan 2021

Dynamic websites and CMS-driven pages — designs turned into responsive, database-backed templates.

PHP Developer

Axistechnolabs · Ahmedabad

Jul 2019 — Jul 2020

First role, and where I learned CodeIgniter: a three-role job portal with an in-app résumé builder and PDF export.

OPEN SOURCE

Six MIT-licensed developer tools on Packagist and npm — 5,900+ installs.

- **jaydeep/laravel-time-machine** — profiles the full Laravel request lifecycle with millisecond timelines and captured SQL. 68 stars · 1,800 installs
- **jaydeep/laravel-preflight** — scans a codebase for breaking changes before a Laravel 9–13 upgrade. 2,041 installs
- **jaydeep/laravel-guarddog** and **@jaydeepgadhiya/guarddog** — security scanners for Laravel (SQLi, auth, XSS, HTML reports) and for Node.js/Express (61 rules). 1,943 installs · npm
- **jaydeep/laravel-xray** and **jaydeep/laravel-queue-monitor** — architecture and dead-code analysis, and queue job monitoring.
